All the dogs were inside the property at the time of my visit.

The owner dinied that her dogs are always out the property.she it happens on Saturday that her small dog called Fudge got out and the car touched her.the leg had new bandade she said it was taken to Queensburgh vet clinic by her son .
We spoke to her about sterilization and advised her to come to our clinic for sterelisation .
I went to Queensburgh vet clinic to confirm and find out that she was lying.
We went back and gave her 24 hours warning to take the dog to the vet and told her that if she couldn't afford the private vet she could come to our clinic.she showed us human medication (truameel tablets and muscular rubbing ointment)that she used on the dog.i took the photos of the medication.
