General Report Comments: Dogs are not underweight. They are not breeding. He admitted that the fencing wad broken and he said a male got into the property and made his female dog pregnant. He only has two females on the property. He said when the puppies are 6 weeks old he would be keen to sterilise but just needs to speak to his dad about it. He said that the fencing will be done by Monday 04 August. They have got adequate shelter and food was shown to me. No welfare concerns. Will check fencing on Tuesday 5 August.
