General Report Comments: Upon arrival i met Mr Dlamini who was busy with friend offloading another material for a fencing .

Two dogs in question were observed roaming freely and clinically alert . I could one dog around the neck was shaved and cleaned. The dog doesnt display any form of discomfort and they have access to the kennel

I spoke to Mr Dlamini about his dogs. He tried to convince me that it is recial case as Metro police is on the case already. I didnt entertain him i ended up telling him that my duty is the walfare of animals not picking sides. I further told him that the warning was issued.based on my observation and he was calm after that.

As i was going to the vehicle. I bumped into the complainant busy shouting that the dogs must be removed and she procceded to show me the fencing that has been fixed it not good enough in her opinion.

I told her that based on the Animals Protection Act they have complied to the warning that i issued and she must deal with metro if she has a problem regarding the fencing. She then told that she was a metro policer before and she is in contact with one of the officers .

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
