General Report Comments: Upon arrival i met Shirlz and she was with her boyfriend.

They granted me access to enter the property. The dog in question was observed and it clinically alert. The dogs has access to shelter and water. According to Shirlz the tanents dog caused her dogs to fight against each other. The tanents dog appears to be in a good condition.

The dog that was attacked was put to sleep by Queensburgh vet as it was badly injured. According to what the owner said she had 2 male pitbull and they fought. I told them that in future they shouldnt own two male dogs as the tend to fight for dominant.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
