General Report Comments: Upon arrival i met the complainat who pointed out a workshop that is next door.

I went to that workshop and i manage to find the right address.

Upon inspection i met Siphelale and shared the nature of complain. He explained to me that he recently moved in to this work shop.

He then took me to the backyard where two dogs were observed roaming freely. Both dogs are slightly underweight and they have access to adequete shelter that can protect the dogs from weather element.

On my observation the place was dirty as i could see water running. They also work at the backyard and i had a conversation with the owner that he must find another place to keep the dogs as it is not suitable. I observed hazadous objects and i informed the owner that they must be removed.

I issued a warning

- To clean the animals living area within 72 hourd and it clean at all times and free from parasites.
- To deworm your animals by Dewormer

The dogs must be rehomed within 7 days.
