General Report Comments: Upon arrival i met Botha and he granted me access to enter the property.

Botha is the owner of the monkey named Bubblegum. The monkey was observed in a good condition and the monkey is clinically alert. The monkey has access to a shelter as it is a part of a cage. There is sufficient space and enrichments.

The living environment is clean and hygienic. Portable water is provided for the monkey and i requested to see a permit.

They made an excuse that they recently moved in. Botha stated that it in one of the boxes. I made it clear that im not taking an excuses and i wanna see the permit.

I issued a notice to comply
