General Report Comments: Upon arrival i met Gabisile

She granted me access to enter the property. I went to the backyard where the dog in question is kept.

On my observation the dog in question is on a running chain that is about 6 meters long. The dog in question can express animal natural behavior and the dog has access to shelter that can protect the dog from weather elements. The living environment is clean and the dog has access to portable water. The dog appears to be in a good condition and good health.

I strongly believe the case can be closed. There is no contravention of the Animals Protection Act 71 of 1962 and there is no further action that can be taken.

NFA.

I spoke to the owner of the phone that he get a kennel for the dog and he responded he is working on it. The drum is used as shelter and it adequete. That the education i gave the owner regarding having a dog.
