General Report Comments: Upon arrival i met Rob and shared a nature of complaint.

He was frustrated when i shared a nature of complaint.

He further explained that the cats are feral cats. He loves animals and one cat was seen in the bush while i was entering the property. He is just feeding these cats and he doesnt own them

They come to the housr to eat and hide during the day. He further added that it not his problem when people around the area doesnt like cats. He also showed me cat food i then offered a sterilization but he told me that he will phone once the cats are used to him cos they come and go as they please. There is only one domesticated cat that is roaming freely in the house and it is sterilized.

I strongly believe the case can be closed there is no contravention of the animals protection act 71 of 1962 and there is np further action that can be taken in terms of the act.
