General Report Comments: Upon arrival i met Johanne
I shared a nature of complained

He claimed number 53 complaint as his pitbull used to jump the fence to play with the neighbors dog.

However they have closed off where the dog used to jump . In the other side of the property fence was raised also so the dogs dont leave the property.

5 dogs in total are at this property. All the dogs are clinically alart and in good health. The dogs are roaming freely and they have access to adequete shelter. The dogs also has access to the house at all times and portable water is provided.

Johanne also denied these accusation saying his wife is always home and he was gonna know about it. Johannes wife joined the conversation and she stated her dogs always at the property. Past few days there was a dog that was knocked down the road and they must be mistaking that particular with their brown dog.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
