General Report Comments: Upon arrival I Met Graham

Two dogs are roaming freely on property.

Graham has feral cats and actually this house is built for feral cats only. All his cats are sterilized and the way this house is built. It is a cattery that is well secured. Cats have access to the rooms and they can move to the 2nd section of the house. Owner made sure that this cattery is well mentained and the cats cant leave this property. There is a walk way for the cats actualy welded to the house and the cats can walk through access another section of the house.

There is a caregiver who resides at the property. He looks after the cats and Graham daily comes to check if everything is in order.

Graham feeds feral cats around the area. The cats have sufficient space and they have access to water. Cat litter are not duty as a sign theyre cleaned daily and bags of food was seen.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.

ACTIONS

NO ACTION REQUIRED
