General Report Comments: Upon arrival i met Vonique.

She granted me access to enter the property.

Two dogs were roaming freely at the property. I wanted to focus more on the old dog. She called the old dog and it came running to her. Based on my observation the dog didnt display any form of discomfort but you can tell the dog is just old. I checl the teeth. There dog has lost a lot of teeth and it is fed soft food just to keep up.The dogs have access to the house at all times. They are well looked after and water is provided for the dogs. The living environment is clean and well maintained.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
