General Report Comments: Upon arrival i hooted and i could observed the dog in question sleeping at a shade since it is hot.

Billy came to me and i shared a nature of vomplain

He explained they put a dog on 3 meter chain when they are driving out and release the dog. The dog is not always on a chain and he further stated that when someone is mowing grass only then but the dog is always roaming freely.

The dog was observed in good health and clinically alert. The dog has access to adequete shelter and the living environment is clean.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there.is no further action that can be taken.

ACTIONS
