General Report Comments: Upon arrival i met Sbu

He granted me access to enter the property

He took me and Siya To the backyard where 3 dogs were observed. All the dogs were roaming freely. He further explained that he did cage the puppies on a previous day and his neighbor shouted.

All the animals are in good health and clinically alert. The dogs have access to adequete shelter and water. I advised the owner to provide a bucket

He was also educated about the small confinement that it not allowed.

I strongly believe that the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
