General Report Comments: Upon arrival i met Londa he granted me access to enter the property.

The dog in question was observed with a rope that is 7 to 8 meters long. The dog can rotate 360° as the owner was educated and the woods has been removed where the rope used to stuck.

The dog has access to adequate kennel and portable water is provided in a large bucket. The dog appears to be in a good condition and clinically alert

The guys were busy putting up Precast fencing since wire mesh fencing has fallen. The owner also stated he has received many warnings from the Spca and also appreciated how i approached the case when it to educating. He further stated that once he is done the dog will roam freely as lot of messages has be circulating on community group which made his pissed.

I strongly believe the case can be closed there is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken
