General Report Comments: Upon this inspection i was accompanied by inspector Petros.

The owner difficult in giving us her address and we told he we wanna donate dog food . She became keen to meet us.

Upon arrival 8 dogs were observed roaming freely and no dog was observed sick. The dogs have adequate kennels provided by Wendy and all her dogs are sterilized . Food was donated, water bowls and blankets.

She then explained that her son found the dog on the road and wanted to rescue it but she realized dog needs medical attention and that why she made means to get the dog to the Spca

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can ve taken
