General Report Comments: Upon arrival i met Njabulo

He explained to me that someone bought the rabbit and she said she will treat it herself.

The petshop has 2 rabbits and they are in good health. Hidden spaces is provided for the rabbits and i checked every rabbit. No concerns were observed and the rabbits are kept in a clean environment that you can see it has been deeply cleaned.

I issued a warning based on the rabbit that was reported. Apparently has been sold

In future any animal that is sick or injured must be taken to the veterinarian for assessment or further treatment.

Failing to do so may lead into further actions taken against you for being in contravention of the animals protection act 71 of 1962
