General Report Comments: Sipho and myself went to the property.
Upon our arrival we were met by the owner Delcine .
She told us that the pig was shot by the neighbour with six bullets.
She said the pig got out of pen and went to the road ,
When we arrived the pig was in the chickens run .
It was a female pig black in colour, it was lying down not moving and we all thought it was dead. there was blood around the pig's nose.
But it was still alive .
We discussed it with the owner that it would be better if we slaughter the pig as she stated that it was shot six times ,
She agreed and signed the admission form .
We slaughtered the pig and brought the body to our vet to do the report .
The SAPS member arrived , after they spoke to the suspect they told us that the suspect said the pig was trying to attack them then he shot it to defend himself .
The police said the gun was licenced and they could not arrest the suspect or take the gun away .
We will wait for the vet's report to see if we can open the cruelty case .
