General Report Comments: Owner was not home but its an open property and we were met with the owner. The owner's dog is a tan male with a skin condition and eye discharge. The neighbours dog (black and white) is also starting with mange. Field officer Eric gave medication and also educated them on proper shelter . Unsure if the owner of the tan dog still wants to keep the dog there is also no water or shelter available for the dog so left notice for call back with the neighbour
