General Report Comments: Owner was not home but we met with the uncle who provided us with all the owner's details. We found two adult dogs and one puppy chained. Only one dog was in shade ut no other form of shelter. No shade or shelter for the other dog and puppy. None of the three dogs could reach the buckets of water. The one adult was also chained to a steel object wth four arms making entanglemnt easy. The puppy also had severe skin condition and infested with thicks and fleas. We moved the chained dogs to shade and provided water and bravecto for the puppy. The yard is not secured. Warning given to uncle to give to owner
