General Report Comments: Upon arrival I met Damelyn

He granted me access to enter the property.

The dog that had a skin problem was observed in good health and clinically alert. All 14 dogs at the property are in good health having access to water and the living environment is clean. Pellets are provided and no dog appears to be underweight.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
