CHECKLISTS

General Report Comments: On the 24 July 2026 I got the vet report,
The vets report revealed that there were no bullets found inside the body ,
There was entry and exit wound above the pigs snout.
Then I called the suspect Mr Moonsamy, he told me that they, him and other workers were Woking
in his yard.
The black pig came out of the bush.
He said they thought it was a bush pig.
It came straight to them wanting to attacked them.
He said he fired the first warning shot but the pig kept on coming straight to them then he shot it
several times then it run away.
Later he heard that it was the neighbour's pig.
He said he was very sorry he was also prepared to for it.
I discussed this case with other inspector, we all agreed that we will not have strong case because
the suspect said he was defending himself, the pig was not wearing any identification and it was out
of its property.
The only thin we could do was to issued the him with the warning.
