General Report Comments: Upon arrival i hooted but no response i waited for about 5 minutes

I confirmed to the complaint if I'm at the right address.

I then hooted again until Khethelo came out. He granted ke access to enter the property and he explained that they had a problem with a dog named Snoopy who usually went out until they separated the property.

I went to the back and observed the dog named Snoopy roaming freely having access to adequate shelter and water is provided. The living environment is clean and hygienic.

I was taken to the main house where i observed the puppy. The kids were playing with the puppy

Khethelo explained that if the dogs are playing sometimes a puppy will cry when snoopy is a bit rough. No injuries were observed on both dogs

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken. The owner is not interested in sterilization even after i explained the benefits

ACTIONS

NO ACTION REQUIRED
