General Report Comments: Upon arrival i met Keshney and she granted me access to enter the property.

I shared a nature of complaint and she took me to the back yard where the dog is kept. The living environment is clean and hygienic and the dog is in good health. The dog has access to adequate shelter and based on my observation the dog is very protective towards the owner.

There were guys at the gate from the municipality sorting out water. We walked around she she showed me fresh feaces.

Keshney further explained that there is a guy that they hired to clean the property. For those reasons she kept the dog on a chain temporarily and she even provide a netting for extra shade. She also showed me a gate that has fallen which was used to separate the property. Keshney told me that they're gathering money so the dog will roam in a bigger when strangers are at yhe property.

There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
