General Report Comments: Was met with a gentlemen, owner of the cottage. He stated that he knows other residents has previously set off fire crackers to scare the monkeys away but he has asked them to stop as it frightens all the dogs in the complex. They apparently have not done that again for a while. He is also not aware of any monkeys that recently had been injured. There is also three dogs in the complex that has access to his side as well and none of the dogs seemed fearful towards him
