General Report Comments: Upon arrival I noticed this is the house that ive visited months ago and people were complainaning that the dog is on the road.

I entered the property as the gate was opened. I met Keshav whom i spoke to last time.

There was no noise and i shared a nature of complaint. He took me to where the dog is kept in the backyard.

I observed the dog and the dog is kept in the enclosure. The dogs name is Copy it appears to be in a good condition and clinically alart. The living environment is clean and hygienic. I could tell the living environment is well maintained. Keshav also explained that the neighbour at the back also has a dog and the dogs usually barks at eachother.

Education:

However i did explain to him that if the dog is barking non stop is seeks attention and when it kept in an enclosure his father must get enrichments or toys to avoid boredom.

The main reason for the dog to be kept in an enclosure is simply because there are vehicles coming in and out of the property. Dulu family doesnt want the neighbours complaining and the dog is left to roam freely when everyone is home.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
