General Report Comments: Upon arrival i met Ether she granted me access to enter the property.

We went to the backyard where the dogs are kept. The backyard is also separated into two. She explained showed me where the dogs dig the holes and get out.

3 dogs were observed in a good condition. No injuries were observed and the dogs are clinically alart. The living environment is clean and hygienic. Adequete shelter is provided and portable water is also provided. The dogs are only moved to the frontyard at night only

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
