General Report Comments: One dog roaming freely on property underweight. Owner said they have recently dewormed and are feeding twice a day. Said that the dog needs to pick up weight either feed more or something. When I passed the property again later the dog was gobbling up food from a bowl meaning the owner gave food after I left but seeing how the dog is eating he is hungry. The other dog is on a running chain because he chases the chickens. No further action there
