General Report Comments: The supervisor was not present was granted access by the housing facility manager. Only two dogs were in the kennels as they were all out on shift. The malionos seems to be sloghtly underweight. The Spaniel is in a good condttion. The kennels are good and well kept. They do however have igloos on steel surfaces of which some are broken at the bottom opening gaps where their legs could go in and cause injury. One water bucket was in direct sunlight advised to move to shade. Also the water buckets are a bit high but all the dogs are fully grown just advise to ensure the levels dont get to low. All buckets were completely full at time of inspection.
