ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
WATER AVAILABLE	Yes	
ADEQUATE SHELTER AVAILABLE	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	

General Report Comments: The petshop did not have a lot of animals in stock as many of the cages were empty. The staff were busy cleaning cages upon my arrival. The fish section is in a separate part of the shop. No gravel is used in the tanks in order to make sure the flooring of the tanks are clean. Each tank contains two or three artificial plants depending on size. None of the tanks were overcrowded.

The rest of the animals are kept in a different section of the shop. The African Grey and Blue & Gold Macaw birds are not for sale. They are both in large cages with multiple perches and enrichment perches. All bird cages have metal hanging bowls for food and water. All bowls were clean and contained fresh water and food. The birds are on a seed diet mixed with vegetables and fruit and legumes. No feather plucking was seen on any birds.

The reptiles are kept in glass tanks. Each tank contains a heating pad and heat lamp. The front of the tanks have peat and the back of the tanks have green artificial grass. All the tanks inside were clean as well as the glass. All the snakes have recently shed or are in the process of shedding as their were skins in the tanks.

All the rodents are kept in glass tanks with wire mesh on top of the tanks for ventilation. A deep layer of woodshavings is used as substrate was smelled clean and fresh. Each enclosure contained forms of enrichment such as wheels or tunnels. Each enclosure had water bottles that were full and clean.

Overall the shop was clean and had no smell of substrate or animals. All animals were in good condition. The shop makes use of Craigview vet for their birds when needed.
