General Report Comments: Upon arrival both dogs were free roaming in the back yard. The entire back yard is enclosed with precast walls (1.8m) reinforced with fencing on top making the total height reach over 2m. The back wall is a concrete wall of 2.5m. The property is the same as it was seen over the last two years. There is no part of the walls the dogs can use to jump over into other yards or onto the street. The swimming pool area is enclosed with metal fencing too. Both dogs use the backroom as shelter. Bowls for food and water are present. Before concluding the inspection, Mr Boschoff and I discussed sterilising the female dog as she has had three litters already.
