General Report Comments: The dogs are in satisfactory condition and even though the palisade gates are reinforced with mesh, the dogs are still able to escape the property. We discussed with Mr de Bruin the dangers of the dogs being out in the streets and he informed us that the dogs do not roam the streets but walk on his pavement if they are out. We then discussed the incident where the dog was knocked over by a car and Mr de Bruin showed the dash cam video footage. It could clearly be seen that Mr de Bruin was not speeding and that the dog ran into the street out of nowhere in front of the car. It was an unfortunate accident.
