dog is in very good condition

left upper canine is broken but has been like this for a while but not causing any pain on touch. will monitor and if a problem will have it removed and so also for the right bottom canine.

small incisors upper and lower jaw broken short but not infected, will also monitor and remove if needed. rest of her teeth is fine and no need for a dental for rest of mouth. small nodule left angle of mouth lip fold, no need to do anything now and will monitor.
