General Report Comments: The owner was met on site and explained that due to the house currently having no electricity or running water, she has temporarily moved in with family who reside further down the same road.

She advised that she cannot take the dogs with her to that property as there are already other animals present, which could result in conflict. The owner stated that she visits the property daily to feed and check on her dogs.

Upon inspection, all animals were found to be in satisfactory condition — they have access to food, clean water, and a warm, sheltered sleeping area.

The owner informed that they will be moving to a new home at the beginning of November, at which time the dogs will be relocated with her.

Animals Observed:

1 × Boerboel-type male

1 × Pitbull-type female

1 × Crossbreed male

All three dogs were seen and handled during the visit.
