General Report Comments: The dogs are kept permanently in the back yard. The male dog is slightly aggressive towards strangers whereas the female dog is friendly. The female dog is apparently a friend's dog that has only been on the property for two weeks. The dogs are apparently good with the children as they grew up with the children. The back yard has long grass but Mr Singh has been unable to cut grass with the rainy weather. A large wooden kennel is present on the stoep in the back yard, as well as a large container filled with water. Two empty steel bowls were also present. No excess dog faeces were seen in the back yard. Mr Singh showed the bag of Juava food that the dogs are fed.
