ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Dogs appear to be scratching excessively from external parasites

General Report Comments: This property has been inspected numerous times before for the same problems of the dogs being locked in the garage that is dirty with no food and water. In the past, SPCA has been met with resistance and police had to be involved to conduct inspections. Once again, the property was inspected with a police presence. Once Captain Wynand du Toit and I arrived at the property and hooted several times, Mrs Abos came out and suddenly the dogs were also out. Mrs Abos was adamant the dogs were not locked in the garage, they were just resting there. Inside the garage we saw that it was filthy again with faeces, sponges, and other rubbish. No full bags of food was present, just an empty bag of food. All containers were dirty and empty containing no food and water. Outside in the yard, the grass was very long with rubbish lying all over. The dogs appeared to be scratching excessively, but were in good body condition. We warned Mrs Abos that they cannot have the garage dirty all the time and wait for SPCA to show up to tell them to clean it. The area where the dogs are kept needs to be cleaned daily.

ACTIONS

Warning Issued 10472

REPORT OUTCOMES

Follow-up inspection to be conducted 2025-02-14
Follow-up inspection to be conducted 2025-02-14
