CHECKLISTS

General Report Comments: The front of the property is enclosed with palisade fencing with metal rods inbetween the gaps; therefore, no small animals can escape the property through the fencing. The rest of the property is enclosed with precast walls. Perimeter height ranges between 1.8m and 2m. The front and back yards are separated with a solid garage door and the house itself. The pool in the back yard is enclosed with metal fencing.

According to Mr Botha, his previous dogs passed away from old age. The dogs will only be kept in the back yard and will sleep inside the house at night for their own safety.
