ADEQUATE SPACE AVAILABLE	Yes	
CLEAN LIVING ENVIRONMENT	Yes	
ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Peanut unsure about tick bite fever
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Hugh and I, Elani arrived the property and met with Sophia and her daughter. We asked them what has been happening with Peanut. They explained that about 5 days ago Peanut was so lethargic that he struggled to walk and fell over if he tried. When asked whether he is eating or drinking or vomiting, they claimed he got better and started eating and drinking again. They feed dog pellets, liver and rice to their dogs twice a day. Peant was slightly underweight and when we looked at her gums, it was still pink, not white or yellow. We were unsure on what to do and informed the owners that if Peanut gets worse before Friday they need to call us and surrender Peanut. This is because the treatment of tick bite fever is extremely expensive and they cannot afford this . The rest of the welfare of the dogs were acceptable.

We all agreed to do a recheck on Friday to see whether Peanut has improved or not.
