General Report Comments: Enzo and I, Elani arrived at the property and met with an 11 and 16 year old girl through the gate. We mentioned why we were there and got most of the information from them like this.

The property has a large veranda and there were 3 adult dogs of which one is male and all of them unsterilized. Both females had 15 puppies altogether but there are three left. Even with this, the dogs were all in acceptable condition and not underweight.

I gave the girls an information pamphlet and explained that they need to let their parents know about sterilization as this is clearly a problem here. They agreed and said their parents did speak about it.

Other than this, no welfare concerns were observed.

Case to be closed.
