| Comments:       | <p>Hugh and I, Elani arrived at the property and met with yhe caller named Peta. She took us to where the falcon was. We vould not see the injured leg from the bottom. Her son then came and showed me the injured leg of the bird on his camera.</p> <p>I informed them that we can try to catch the bitd but if it can fly, there is not much we can do. As we spoke the parents came to sit by it in the tree which means they are still looking after it.</p> <p>I decided to start climbing the tree from behind to see whether I can catch the falcon. As I started climbing, the bird flew away.</p> <p>I then went to the front to gind Peta as she was looking for a ladder by the neighbours to tell her what happened.</p> <p>She was quite degrading by telling me avout wild raptors as if I know nothing about them, what they eat and never touched one. I kepty pose and told her unfortunately theres not much one can do if the birds can fly.</p> |
