Comments:	Hugh arrived at the primary school and was greeted by Zaino Ahmed. She then mentioned the owl was inside the classroom. I then went inside and she handed me a box. She mentioned that the owl had apparently been injured because he walked around the school and was easily caught. I then explained to her that I'm going to take the vet and I left. I then arrived at WAHG and was then helped by Dr. Elani. She did various tests and said she will be keeping the owl as his one wing looks hurt. She mentioned that if he is okay I can release him where I found him. To release him today.
