Date:	2024-09-26
Time:	12:30
Inspector:	INSPECTOR ONE

Type:	COLLECTION - ANIMAL COLLECTED
Follow-Up Date:	2024-09-26
Comments:	I,Hugh arrived at the property and I greeted Liz.She then mentioned to me that the dog has been roaming in argyl street since yesterday. I then walked with her down the road and we saw the ridgeback and the Jack Russell that she had been seeing.I then called the tenants in the yard as the dog was then in 24 argyl street.They then came outside and I introduced myself and they allowed me inside the yard.I then saw both dogs and they mentioned that the dogs had been there for two weeks as they had been feeding the dog. I then told Liz and the tenants at 24 argyl street that I will try to get a hold of the owners as the jack Russell has a collar.I then called the owner and it went straight to voice mail.I then left as the collar states the owners live in 44 bordoux street. I then arrived at the property and called the owners from outside the house.It was visible that the owners had not been there at the time.While attempting to call the owners again the neighbour came outside and explained to me that the dogs are becoming a nuisance as they keep coming outside.She also mentioned that the owners are away to Namibia and that they will be coming back by the 30th of September. She then gave me the number of Spyker who is supposed to be looking after the dogs.I then called him and he explained that he had tried everything to contain the dogs but they still come outside somehow.I then suggested keeping them inside the house to prevent them from escaping. He then agreed.
