Comments:	Elani and I,Hugh arrived at the property and made the call to Letisha which she then gave us access to the premises in order remove the dog from the premises. We then went to the gate and reversed the bakkie towards it.Elani then got on the back of the bakkies flap in order to climb the gate as it was locked.She then climbed the gate and the dog was very friendly.The neighbour who allegedly saw the owner hurting the dog then came across the road.She mentioned to us that she did tell the owners of the dog that she will call SPCA and thus the owner decided to contact us to remove the dog. Elani then picked the dog up and we could see his not used to a lead. We then placed a blanket on the top of the gate as it is sharp.She then handed the dog over to me and I the put the dig in the crate in the back of our bakkie.Letisha also mentioned that the kennel in their yard was bought by us and they will bring it back to us as soon as they can. The dog was then transported to the SPCA. NFA
