Follow-Up Date:	2024-11-14
Comments:	Elaine from Cape Nature called us to assist with a leopard tortoise someone collected in Wellington . I called her dad and got the number from him. I then left Leonette a message on the afterhours phone to find her address. She called back after a while and gave me her address. She said her husband picked it up on the side of the road in Saron and there was a wire attached to its shell. This is a cultural belief. He might be injured and they removed the wire. To pick him up around 14h00 To call Anri from Cape Nature for assistance regarding the release of the tortoise
