EMAIL RECEIVED:

Hi Elani.

Hope you are well.

With regards to the attached warning we received about 6 of our 70 horses on the property that were out in the elements without adequate sheltering... Please keep in mind 3 of the 6 had rain sheets on.

I would like to know if surrounding stud and livery farms that have horses living out without shelters or rain sheets received the same warning, or is it just because we are in the public eye that we have been singled out ?

Furthermore I would like to mention, and correct me if I am wrong. not one of the 6 horses that were standing outside look abandoned, underfed or malnourished ?

Any person that has any involvement with horses will agree that horses were made to live out in nature and withstand the elements, we as humans have decided to domesticate them.

I hope the message finds you well.

Kind Regards

Brandon
