Comments:	Elani and I,Hugh arrived at the property and could see from the outside that the dog was not where it used to be. We then called from the outside but seemed no one was home .We then went to the neighbours who then gave us access in order to see whether the dog was in the backyard. We could then see into the backyard but there was no dog. We then walked outside again and one of the minors who lives there came walking down the road .We then asked them where the dog was and he mentioned that the dog was in the house.He then said that the dog usually roams in the backyard and in there house but they are going to build the runner this weekend. To follow up on Monday whether they had complied .
