Type:	CASE DISCUSSION NOTE
Follow-Up Date:	
Comments:	I called Pierre today and told him about the situation on Pont plaas. He said they have in their contract that people may only have one dog per property. I told him the only way to make them comply is either by opening civil cases which might be costly or to use scare tactics by telling them they have a month to sterilize their animals or the SPCA will come and remove the animals so that they can arrange and pay for this. He brought in a dog from their Lady Loch farm at the same time that was busy dying and Canine Distemper positive. I then educated him in detail about this disease and told him to inform the other farmworkers with dogs and he agreed. To close case until further notice.
