Comments:	Elani and I,Hugh arrived at the property where the complainant lives. We then greeted her and introduced ourselves.She then explained to us that the owners of Meide does not care about her and she constantly comes to their house. We then called the owners of Meide but nobody came outside .We were then guided through another yard towards where she had given birth. At first we could not see or hear any puppies since it was dark under the informal house. After a while of searching I saw one puppy and I removed it from under the house. We then searched further for the rest of the pups but I could see that Meide had little milk so it could be possible that she only had one puppy as we couldn't find any other pups. We then told the complainant that she can call us anytime as soon as they hear any more crying .The complainant then signed the dogs over as strays and we left. NFA.
