ANIMALS IN GOOD CONDITION	Yes	
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Static Chain - adequate length	Dog jumps fence

General Report Comments: Elani and I,Hugh arrived at the property and noticed that the dog was on a runner but it was not very stable and the dog broke the runner.

We then called the owner from outside the house but no one came outside .

We then noticed his son coming from a different direction and entered the yard .He then called his father who is the owner.

The owner then came outside,when asked why the rubble is still there he replied and informed us that he is waiting on a vehicle to take the rubble to the dump.When asked why the dog broke the runner he replied that it's not secured and his planning on fixing it later in the day.

We then spoke to him and told him it's important to fix it now to prevent the dog from jumping the fence.He then allowed us inside to assist him.

I,Hugh then took one point of the runner and wrapped it around a steel post We noticed and it seemed stable.

Elani then took one of the braai barrels and moved it towards the end of the runner and wrapped it around it.We then filled it with bricks and it seemed stable .We then watched for a few minutes and noticed the dog is not getting off the chain .

To follow up 3rd of July.
