CLEAN LIVING ENVIRONMENT	No ***	Excess faeces and hazardous material
ANIMALS IN GOOD CONDITION	No ***	2 kids
VETERINARY PROBLEMS / HEALTH CO	Yes ***	2 kids
CONFINEMENT OF ANIMALS	Caged - adequate space	Farm animals

General Report Comments: Elani and I,Hugh arrived at the Clanwilliam informal settlements and met with the complainant Anneke Koopman.

Anneke then showed us where the animals are kept and we informed her that we will be taking a look at all the animals in that informal area.

We then did a walk through at each enclosure where animals are kept ,there were mostly pigs but also,goats,sheep and chicken at the time of our inspection.

We took about three hours to do a welfare check and left warnings at farmers where issues were found.

We noticed a goat that just gave birth to two kids one of them was very weak and Elani section fived the kid.

We got help from one of the local farmers called Maizer (0839266369) and he informed us that one of his kids was busy dying and asked if we can help.Elani used this opportunity to train Hugh to humanely slaughter a goat,he was successful.

Main concerns found in this area were cleanliness,potable water and wet sleeping areas.

Warning 010:

- 1.Provide clean water at all times and ensure to fasten water bowls to prevent knockover.
- 2.Clean the pigs living environment from excess faeces and hazardous material(wire,plastic,rubble,etc)within 7 days.
