ANIMALS IN GOOD CONDITION	No ***	Slightly underweight
VETERINARY PROBLEMS / HEALTH CO	No	
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Elani and I,Hugh arrived at the property and we were greeted by Anthea Fenson .We then introduced ourselves and she allowed us inside her property.

We then had a talk and she informed us that one of the neighbour's dogs entered the property and was then killed by their dogs Batista and Lady.They were then concerned that they could get in trouble and we informed them that their animals were protecting their premises and that's why this probably happened.They then took us around and showed us where the neighbours dog got inside their yard.

We then went outside and took a look at the animals.We noticed that Lady and Batista were slightly underweight.When asked what they are fed they informed us they feed them potatoe peels and left overs aswell as bobtail.We then informed them that they should switch the type of food they give in order for the dogs to gain weight and also deworm their animals which they agreed it.The dogs had fresh water and well self built shelter.

We then educated them on sterilization and they agreed so we left them our clinic details pamphlet .
